JEEP TOTAL VINTAGE COLLECTION

If you yearn for a rugged lifestyle then you need the clothes for it and very few brands represent the great outdoors like Jeep. Now it brings you the Total Vintage Collection, an impressive line that includes men's, women's and children's apparel and accessories. The collection is a modern take on the American west of old. The typically practical designs of the old adventurers are replicated through the use of modern fabric and technology, from the humble backpack up to jackets that keep you warm through chilly nights and down to the stylish but rugged boots that won't give up on you.
