MAD FOR MOD

What better way to incorporate one of fashion's greatest era and an epic TV series all in one? Banana Republic presents the "Mad Men" collection, inspired by the costumes featured on the show reflecting the mod vibe of the late '60s. Channel each character from the series with a modern and contemporary twist.

1. MEGAN

A young and appealing style. Look outstanding in bold colours and shift dresses with psychedelic prints and you'll be the centre of attention.

2. PEGGY

Tough and successful. Pick matching accessories and pieces that show off that confident look without losing your femininity.

3. JOAN

Daring and sassy. Steal her immaculate style with form-fitting silhouette pieces that show off voluptuous curves. Think queen bee!
