# CARPE BIEM

Seize the day on a brighter note with the Living Colours collection by BIEM

All work and no play may make Jack a dull boy, but that doesn't mean Jack has to submit to such stale staples. The new 'Living Colours' collection by BIEM revives the dandy 60s for today's modern men, who appreciate retro fashion with a twist. One of the main highlights this season is the jacket with slim lapels with an interesting inner lapels design that can be worn in two ways. Match this diverse fashion piece with BIEM's great selection of eccentric patterns on shirts, classic cardigans and slim and tapered pants. Before you know it, you'd feel like you are in love at work, even though it's not Friday just yet!

*BIEM is now available at all leading departmental stores like Parkson and The Store Sogo, with items priced from RM69 to RM239. For more information, visit [www.facebook.com/myBIEM](http://www.facebook.com/myBIEM)*
