## MAKE ROOM FOR VERSATILE

We all love Timberland. It's rugged, evergreen, versatile, comfortable...it's Timberland! This season, the brand has some cool tapered fit chinos and jeans, available in a variety of washes and featuring seams that created a slimming look. Being Timberland, some of the styles are made with Cordura fibres, making it more long-lasting. These fibres are four times more abrasion resistant than traditional cotton while still providing the comfort to the wearer. While you're at it, also check out their t-shirts and checked shirt. Pair 'em with these trousers and you're ready to stroll.
